District Quotas Fixed For Jackson County.

Following the instructions of
the Sixth Federal Reserve Lib-
erty Loan District the Jackson
County Liberty Loan Committee
met on last Monday and fixed
the quota for the county.

The quota for each District are
as follows:

1st Dist.	\$16,700.
2nd Dist.	\$6,250.
3rd Dist.	\$2,600.
4th Dist.	\$6,150.
5th Dist.	\$13,850.
6th Dist.	\$400.
7th Dist.	\$11,500.
8th Dist.	\$5,700.
9th Dist.	\$3,750.
10th Dist.	\$2,000.
11th Dist.	\$8,100.
12th Dist.	\$8,50.
13th Dist.	\$10,250.
14th Dist.	\$7,000.
15th Dist.	\$1,600.

Quotas are fixed for individuals
in each District to bring up the
allotment for the District.

It is predicted that these bonds
will be bought freely as this, in
all probability will be the last
bond issue of the war and every
one will be anxious after the
war is over to be in position to
show what they did to win the
war. The boys who have gone
to the front will want to know
and woe to the man who is fi-
nancially able, but who prefers to
make money out of the blood of
the boys, rather than shoulder
his part in the great conflict.
The Bond is the Gun in the
Home. If a man fails to have
his bond what will the boys
think and what will his neighbor
think?

The more bonds you buy, the
fewer boys will die. Buy to the
limit of your ability. Don't stop
at the quota fixed for you by the
committee.

Help Eradicate Hog Cholera.

To Farmers and Citizens. I
ask your assistance in eradicat-
ing hog cholera.

We have just had a Govern-
ment man in the county inspect-
ing the health and sanitation of
hogs on farms in this county. He
found that we still have cholera
infection in Jackson county,
therefore we ask every one that
has hog cholera on his premises
to burn all the dead carcasses
and keep the sick hogs under
quarantine and off running
streams of water. The law re-
quires this to be strictly observ-
ed and I have been notified by
Government officials to look af-
ter this matter, and ask the co-
operation of the people. Let's
work together and get rid of
hog cholera. The swine indus-
try is too paying a proposition to
be handicapped in such a manner
as to make it unprofitable.

This matter is going to be look-
ed after by the Government.

Respectfully,
Lyman Dudley.

COOPERATION IN HOGGING DOWN CORN.

A shortage of native hogs in a
Middle Tennessee county existed
this year. Some farmers were
not able to secure all the hogs
needed to hog down the larger
corn crop which they had grown.

Experience had shown hogging
down corn to be the most profit-
able way to dispose of the corn.
Labor for harvesting had been
unusually scarce. The farmers,
therefore, made contracts with
men who had more hogs than
corn to let their hogs harvest
the corn.

Sometimes the hogs of a neigh-
bor were turned into a field with
the hogs belonging to the owner
of the corn field, a charge being
made to cover the value of the
corn consumed. This plan saved
labor for the owner of the corn
and made money for the owner
of the hogs.

THE FARM INVENTORY.

A few hours in the fall or win-
ter, spent in invoicing the farm,
its stock and equipment, should
be among the happiest hours
that a farmer and his wife have
together. Much joy comes to
those who discover with mathe-
matical certainty that they have
accumulated a few hundred dol-
lars, and the very certainty gives
one inspiration to take hold for
another year with renewed en-
thusiasm, and to buy Fourth Lib-
erty Bonds with eagerness.

Besides enabling a farmer to
know his business with mathe-
matical accuracy, a well-kept set
of books may enable him to avoid

many disputes and an occasional
lawsuit. Accounts with mer-
chants, money paid out, affairs
with hired help or neighbors, if
put down at the time in black
and white, are not apt to cause
trouble later.

Mr. and Mrs. R. G. Draper, of
Memphis, after a week's visit
with Mr. and Mrs. Frank Gail-
breath and other relatives in
Gainesboro, have returned home.
Mr. Draper has charge of the
legal department of the Frisco
Railroad, settling all damages
claimed against the road occur-
ing in Tennessee, Mississippi,
and Arkansas. During the four
years that Mr. Draper has been
employed by the company he has
rubbed elbows with the strong-
est legal talent in the south and
middle west, and has proven
their equal if not superior. The
claims he handles are generally
settled out of court with the
least possible expense. Mr.
Draper has been offered the
Oklahoma territory with an in-
crease in salary, but as yet has
not accepted it.

STOP THAT INDIGESTION

In the long list of human ills
there is none that causes more
suffering, or is more productive
of serious results than a disor-
dered stomach.

It unfits you for business or
pleasure, and opens the way for
the most fatal disease to attack
your system, Stomach trouble
manifests its presence by flatu-
lence, or "wind" in the stomach
and bowels. The tongue is coat-
ed, the bowels are irregular, and
there is depression, anxiety, de-
spondency, dizziness, headache,
cramps, water-brash, constipa-
tion, diarrhea, or other complica-
tions.

For this aggravating disease,
VIN HEPATICA has been found
to be very prompt and effective.
It should be taken in doses grad-
uated to the requirements of the
case, sufficient to establish a
daily movement of the bowels.

Mr. W. T. Mackie, prominent
planter, Route No. 1, Whites
Creek, Tenn., says: "I was so
troubled with indigestion that
when I got up every morning I
would feel as if I had had no
rest at all during the night. But
I took Vin Hepatica, and was so
greatly pleased with the relief it
gave me that I recommended it
to other members of my family
and all of my tenants, who have
been using it with most excellent
results."

You can get this wonderful
Nature remedy at the designated

Vin Hepatica store.—L. B. An-
derson, Gainesboro, Tenn.
